

Assignment

Ans-1 collection of elements of some type placed in contiguous memory locations

Ans-2 datatype [] name of array; {value 1, value 2, value 3}

Ans-3 size of the array is determined at the time of creation or initialization once it is done you can't ^{change} the size of the array

Ans-5 0 is the default value of array to each element

Ans-6 . int num [] = ~~1, 3, 5, 7~~ { 1, 3, 5, 7 };

Ans-8 2D array in which the elements are stored linearly & can be accessed individually by specifying the index value of each element

int n [] [] { };

Ans-7 class A {

public static void main (String args) {

int num [] [] = { { 1, 2 }, { 2, 2 }, { 3, 3 } }

for (int i = 0; i < 2; i++) {

for (int j = 0; j < 2; j++) {

System.out.print (num [i] [j]);

}

}

System.out.println ();

}

}
